A MANUFACTURING PARTNERSHIP PROPOSAL

Built to grow, together.

A long-term home for your factory's capacity — stable volumes, fair terms and a partner who plans in years, not orders.

WHO WE ARE

An Israeli company with a global manufacturing footprint

Founded in 2005, Cottage Plastic designs and develops stylish, practical homeware for food storage, organisation and serveware — sold worldwide under our KlicBox brand. Every product is conceived and engineered in Israel, then produced through a trusted network of partner factories.

OUR PHILOSOPHY

"Creating simplicity"
High-quality plastic products that make the home comfortable and more enjoyable.

Designed in Israel

Full in-house design & development, sold across international markets.

Made in Asia

Currently produced at 2 factories in Vietnam.

20+ years

Two decades of disciplined sourcing, QA and on-time delivery.

WHY WORK WITH COTTAGE PLASTIC

What a factory gains as our partner

Stable, planned volumes

We commit to quantities 2–3 years ahead — predictable runs that keep your lines full.

Long-term relationships

We invest in partners for the long haul. Our current factory relationships span many years.

Reliable payments

We always honour our payment commitments and undertaken agreements — no surprises.

Built-in global demand

An established worldwide client base means consistent reorders, not one-off projects.

We handle logistics

We buy FOB and manage every shipment ourselves- most shipments are by 40F HC containers- your job ends at the factory gate.

Clear, fair process

Defined design, contracting and QA steps so expectations are transparant from day one.

HOW WE WORK

A clear path from concept to repeat production

01

Develop

We develop a range — typically 3–6 matching items — based on real market demand.

02

Design

Designs are perfected in-house: sizes, thickness and full 3D files.

03

Contract

We share files, target prices and committed quantities, then sign a clear factory agreement.

04

Mold & sample

The factory develops and owns the molds at its own expense, and produces first samples.

05

Sell & order

Cottage Plastic drives sales and places firm, recurring orders.

06

Ship FOB

Goods ship FOB directly from factory to our clients — usually 40' HC containers.

OUR FOCUS

Discipline at every stage

Recognising market needs

We sit with clients and buyers to understand what sells and benchmark real prices.

Designing & developing

Our design team engineers each item to the right parameters and target cost — and registers it.

Contracting with the right factory

We select on machine capability, audited standards (SMETA and others) and price.

Long-lasting cooperation

A partnership must be profitable for both sides. We commit only to relationships built to last.

Klic Box®
Live Simply

SOME OF OUR TOP 5 BEST SELLING PRODUCTS · KLICBOX BRAND

A portfolio that keeps lines busy

Bi-Color

Airtight Food Storage Container

EVERYDAY BOXES

Food Storage Container

QU4RTET

Food storage Container

SpinSave

Stackable locking containers

INSIGHT

Food storage Container

KlicBox spans food storage, kitchen, laundry and bins — a broad range that drives steady, repeating orders rather than one-off runs.

STANDARDS WE HOLD

Quality, ethics and the environment — by default

Quality control

E-print proofs of cartons & labels, sample inspection, supervised packing, loading and documentation.

Virgin & recyclable

Made from 100% virgin raw materials. Fully recyclable. Never compromised.

Environment first

100% recyclable products; we maximise container fill to cut sea-freight impact per item.

Social responsibility

We partner only with factories fully compliant with relevant legislation and community welfare.

Exclusivity & IP

Designs are developed and produced exclusively for Cottage Plastic and protected by registration.

Proven reputation

Long-term relationships with both customers and factories, sustained over many years.

Cottage Plastic
Creating Simplicity

Klic Box®
Live Simply

Open to new partnerships.

We are always exploring new business opportunities.
If your factory shares our standards, we would love to talk.
